sonicare

The next generation...
...has arrived
Sonicare *Elite*®

Experience next generation patented sonic technology:

- **Next generation design** — combines high speed bristle motion and dynamic fluid cleaning action
- **Improved cleaning power** — recent studies show that Sonicare Elite results in 20% better interproximal cleaning than the Sonicare Advance¹
- **Better beyond the bristles** — Sonicare Elite is clinically proven *in vitro* to disrupt three times more plaque biofilm beyond the bristles than the leading brand²
- **Even gentler** — Sonicare Elite is four times gentler on dentin than the leading brand³
- **Most preferred** — Sonicare Elite is preferred over Braun Oral-B 3D Excel among US dental professionals⁴

1. Platt K, Moritis K, Johnson MR, Berg J, Dunn JR. Philips Oral Healthcare. *Am J Dent* 2002;15(Special Issue):18B-22B. (versus Sonicare Advance)

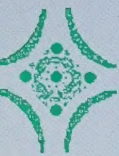

2. Hope CK, Wilson M. University College London, Eastman Dental Institute. *Am J Dent* 2002;15(Special Issue):7B-11B. (*in vitro* study versus Braun Oral-B 3D)

3. Sorensen JA, Nguyen H. Oregon Health and Science University. *Am J Dent* 2002;15(Special Issue):26B-32B. (*in vitro* study versus Braun Oral-B 3D Excel)

4. 2002 U.S. Survey data

Winter Clinic Important Information

South Building, Metro Toronto Convention Centre

Pre-Registration & On-Site Registration:

Fees for all categories are payable to the Toronto Academy of Dentistry.

Please use 1 form per office registering attendees under applicable category. (Only if necessary, please photocopy to add additional registrants per office).

The registration fee includes admission to the Clinics, Exhibits and Lunch.

All registration fees include GST. (#123000879).

WINTER CLINIC BUCKS

"DENTISTS, IT PAYS TO PRE-REGISTER"

Pre-register for Winter Clinic 2003 and be eligible to win \$500.00 worth of Winter Clinic Bucks to be spent on the exhibit floor the day of the convention. The Academy Office will notify the lucky winners after October 31st, 2003.

EARLY REGISTRATION FOR ODHA & ODN&AA MEMBERS:

Pre-register for Winter Clinic and be eligible to win a gift prize and The Academy Office will notify the lucky winners after October 31st., 2003.

The office will accept NO REGISTRATIONS after Friday, November 7th, 2003. The office will be closed on Thursday, November 13th, 2003 (the day before Winter Clinic) and Friday, November 14th, 2003.

Association Membership:

ODA Dentist Members, regardless of their membership status, must have their full ODA dues paid prior to pre-registering or registering

on-site. If current membership dues are not showing paid, non-member fees will apply.

ODHA and ODN&AA Membership fees must be paid to their associations prior to pre-registering. Please make sure the name (maiden or married surname) that appears on the registration form is the same that is listed with your association.

Payment of Fees:

Make cheques payable to the Toronto Academy of Dentistry and mail to:

Ste. 902 - 170 Bloor St. W.

Toronto, Ontario M5S 1T9

Or fax registration forms along with credit card number to (416) 967-5081.

Registration forms faxed indicating payment by cheque **will not** be accepted and must be mailed along with the cheque.

Limited Attendance:

Dr. Feldman & Dr. Pearce's Lunch and Learn program is a limited attendance presentation for **dentists only**. You must be registered for the entire day and indicate on registration form if you will be attending this lecture. **Dr. Peter Bastian's Lunch & Learn** program is a limited attendance presentation for 4th year students and new grads. Indicate your attendance on the registration form.

Cancellation and Refunds:

You will be issued a refund less a \$50.00 administration fee until October 31st, 2003. Between November 1st and November 7th 2003, 50% refund less the \$50.00 administration fee. **There will be no refunds after November 7th, 2003**

Badge Pick-up:

Badges will not be mailed; you must pick them up at your assigned registration desk. All badges will be receipted on the back.

Exhibit Hours, Clinics and Lunch:

Exhibits are open from 9:00 am - 6:00pm. All exhibits are located in Halls D & E on the 800 level of the South Building of the Convention Centre.

SUPPORT YOUR EXHIBITORS!!

Again there will be the "Power Hour" sessions, **informative 1-hour sessions** covering several aspects of dentistry. Power hours allow you to get the most out of your day attending clinics and visiting the exhibit floor. **Lunch - 12:30-2:00 in Exhibit Halls D & E, 800 level**

Attendance Verification for RSDS(O) Continuing Education Credit:

You will receive 6 RCDS(O) credits for attending Winter Clinic. Verification cards will be in your DIAC coupon book that will be given out at registration. **This card must be stamped for Continuing Education credit.** Accreditation desks will be set up at back of 200 & 1300 aisles. **Your name badge is your receipt of payment and should be retained for income tax purposes.**

Academy of General Dentistry receives 6 credit hours. Their booth is located near the front of the exhibit hall.

Remember to register your staff. They need continuing education credits too!

Our Academy

The **TORONTO ACADEMY OF DENTISTRY**, formerly the Toronto Dental Society, has been functioning continuously since 1890. It has provided leadership and service to both the profession and the community, and will continue to do so in the future.

The **OBJECTS** of the Academy are:

1. Advancement of the art and science of dentistry.
2. To promote the highest ideals of dental practice.
3. Cultivation of harmony and good fellowship among its Fellows, and among the members of the dental profession generally.
6. CO-ORDINATION of dental and fellowship functions within Metro Toronto.
7. DENTAL MEETINGS with excellent programs and clinicians.
8. Assistance in formation of new STUDY GROUPS.
9. HONOURARY LIFE MEMBERSHIP to recognize outstanding dentists.

Some of the **SPECIFIC SERVICES** provided are as follows:

1. The Annual WINTER CLINIC.
2. After hour's EMERGENCY TREATMENT service for the public.
3. The Annual WINTER CLINIC/INFORMATION BOOK, a directory of dental organizations.
4. PUBLIC RELATIONS, an experienced staff person to answer the public's queries and complaints.
5. An ELECTED COUNCIL, representing all Metro Toronto dentists and their local component societies.
10. Fellowship activities such as the Annual GOLF TOURNAMENT, CURLING BONSPIEL and SKI DAY.
11. MEDIATIONS SERVICES for the public.
12. COMMUNICATION with dental auxiliary organizations.
13. Provides an ASSOCIATE PLACEMENT service.
14. THE TORONTO COMMUNITY PROFESSIONAL DENTAL ASSOCIATION which donates to charitable organizations.

This is **OUR** Academy. Keep it strong. Support it; Enjoy it.

MISSION STATEMENT

The **TORONTO ACADEMY OF DENTISTRY**, a respected leader and resource to the dental profession in the Metropolitan Toronto Area since 1890, is dedicated to enhancing the professional lives of its members through guidance, education and service.

CORE VALUES

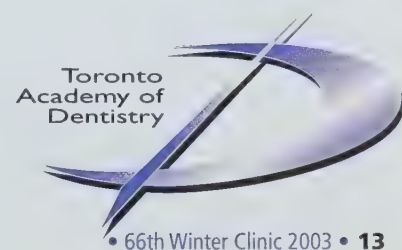

- * Advancement of the art and science of dentistry
- * To promote the highest ideals of dental practice
- * To cultivate harmony and good fellowship among the members of the dental community

THE VISION

The Toronto Academy of Dentistry is a not for profit association representing the dentists of Toronto. We are recognized as a leading, responsible, accountable and benevolent link between the dentists and our community.

THE PROCESS

A governing Council of elected members will guide its actions in accordance with an established Constitution.

Warren Hing, B.Sc., D.D.S.,
President

Arnie Weingarten, D.D.S.,
Winter Clinic Chairman

It is our honour and pleasure to extend greetings to the dental community for this year's Toronto Academy of Dentistry's Winter Clinic.

We have been aware of your requests and concerns, and once again are pleased to present this year's extravaganza on Friday November 14th. This year we invite you to come south with us to our new location in the Metro Toronto Convention Centre's South Building.

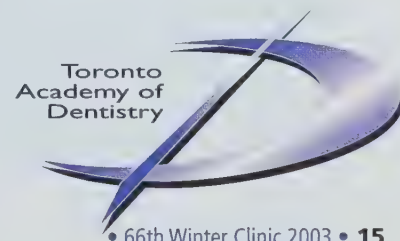

The program this year will include world-renowned clinicians, who will satisfy all appetites for each and every member of the dental team. Visit the live operatories presented by Patterson Dental Canada & Ash Temple Limited. Come and enjoy the learning experience and the camaraderie of the day, culminating once again with the After-Five-Bash – "Margaritaville".

As you are aware the TAD is a not for profit association and as such is obliged to put any profit over and above operating costs into our charitable arm, our Endowment Fund. In the past we have generously supported, The Children's Aid Foundation, Bloorview MacMillan Children's Foundation, The Hospital for Sick Children, Kids Help Phone, March of Dimes, About Face, Daily Bread Food Bank, Easter Seals, Faculty of Dentistry and Women in Transition. Please attend, bring your friends and help us to continue with these worthwhile endeavours.

We would like to thank the Winter Clinic Committee, the Academy staff, the ODHA, the ODN&AA, the Dental Industry Association of Canada, the Association of Registered Dental Technologists and our greatly appreciated sponsors for all their input and hard work that makes Winter Clinic such a success.

Please make every effort to come south with us this Friday November 14th. We will extend such warmth to you, that you will feel like you've been on vacation.

Yours for a stronger and unified profession.

© 2008 CIT Group Inc. "c it" and "We see what you see" are trademarks of CIT Group Inc.

We have a financing plan that can make your practice perfect.

An Ontario dentist was considering an investment in a professional building with his practice as the main tenant. Since CIT specializes in owner occupied real estate, we acted as his financial advisor on the project. After reviewing his goals and consulting with his accountant, we developed a financing plan that would support his growing practice. Since then, both his top and bottom lines have doubled and so have the smiles per capita in Ontario—including his.

So if you're looking for real estate, equipment, or practice financing, click on CIT.com or call 877.590.7356. At CIT, we see what you see.

Greetings

WELCOME FROM THE ONTARIO DENTAL HYGIENISTS' ASSOCIATION

Catherine Grater-Nakamura, RDH, President

Welcome to the Toronto Academy of Dentistry's 66th Annual Winter Clinic. Every year, the Winter Clinic hosts an exciting and varied roster of speakers that will be of interest to the entire dental team. The exhibit floor will once again provide an excellent opportunity to see what's new in oral healthcare products and equipment. The ODHA values its role in the planning stages of this event.

As part of our growth and responsibilities as healthcare professionals, we must seek out professional development opportunities and investigate current research and procedures that will enhance our abilities to provide quality care to our clients. Winter Clinic provides you, as registered dental hygienists, with several options to help maintain your professional portfolio and fulfill your quality assurance goals. It also provides us with an excellent opportunity to network and socialize with our colleagues, exhibitors and members of the dental team.

On behalf of the ODHA, I would like to thank our official delegate, Eva Lissia, for her continued efforts to represent the dental hygiene profession in the planning stages. Thank you also to Raisyl Wagman, the Executive Administrator of the Toronto Academy of Dentistry, for providing us with this professional development opportunity.

GREETINGS FROM THE ONTARIO DENTAL NURSES & ASSISTANTS ASSOCIATION

Mona Trettl, CDA II, CDR, CDTC, President

The Ontario Dental Nurses and Assistants Association (ODN&AA) welcomes you to the Toronto Academy of Dentistry's 66th Annual Winter Clinic.

Winter Clinic is an educational and informative meeting where the entire dental team has the opportunity to learn about current information and products in the dental industry. There is an exciting roster of speakers to choose from and products and equipment to view on the exhibit floor. As professionals, we have the responsibility to keep current on information, products and techniques in the dental industry.

When you are on the exhibit floor, drop by the ODN&AA membership booth. We would be delighted to meet you and listen to any comments or answer any questions that you may have. See you there!

GREETINGS FROM THE DENTAL INDUSTRY ASSOCIATION OF CANADA

David Lind, President

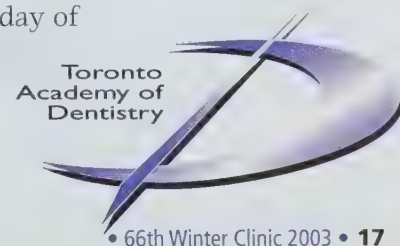

The Dental Industry Association of Canada (DIAC) welcomes all dental team members to the 66th Annual Winter Clinic at our new location in the South Building, Metro Toronto Convention Centre.

DIAC and the Winter Clinic Committee has been working together diligently to present to you a state-of-the-art exhibit floor, displaying the most up to date products and services the industry has to offer. As well there will be live operator presentations on the floor. Make time to visit your suppliers and manufacturers, relax with colleagues in lounge areas and enjoy the lunch served on the exhibit floor.

DIAC is committed to the success of Winter Clinic by supporting clinicians and, we are pleased to be participating in the "After 5:00 Bash" on the exhibit floor, which is an excellent way for the entire dental team to round off a productive day of education and fellowship.

Winter Clinic continues to be the best one-day meeting in North America. On behalf of all Member Companies of DIAC, thank you for choosing to attend today and we look forward to serving you on the exhibit floor.

Heraeus

Taking a good impression shouldn't leave a bad one.

Finally, faster-working polyether without the taste and odor.

Neutral taste and pleasant scent.

Traditional polyether materials can make impression taking a bad experience for both you and your patients. P2™ next generation polyether provides the detail and hydrophilicity you expect from traditional polyether with absolutely none of the bad taste and odor.

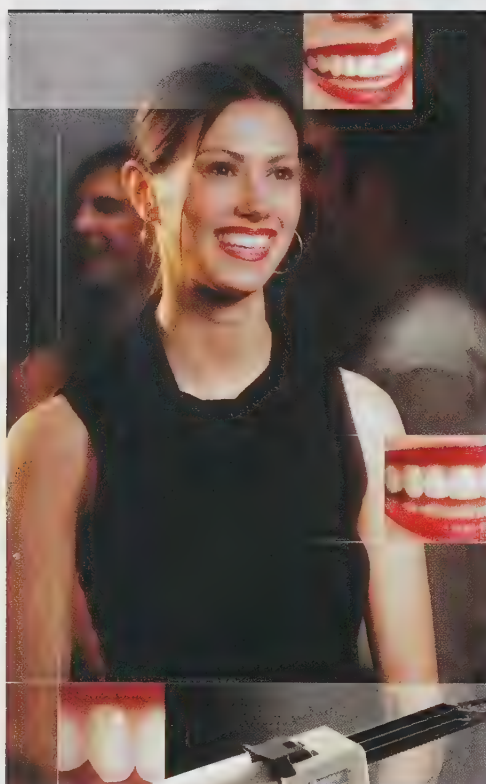

True hydrophilicity.

The most critical juncture in capturing detail occurs at the initial contact between the impression material and the tooth. P2's initial contact angle is lower than traditional polyether materials making it truly hydrophilic. That means your impressions will record high levels of detail accurately, even under extreme conditions.

Easy removal from mouth and model.

The shore "A" hardness of P2 is less than that of most commonly used traditional polyether impression materials. That makes the material easier for the dentist and laboratory technician to handle since it can be removed easily from both the mouth and the model. Damage to set impressions is minimized making finished restorations highly accurate.

Temporaries so beautiful,
no one will ever know.

PreVISION® CB & PreVISION® CEM

New PreVISION CB and PreVISION CEM from Heraeus Kulzer offer exceptional esthetics in a fast, easy-to-use temporary crown and bridge system.

A complete system.

PreVISION CB works perfectly when paired with our new PreVISION CEM. This no-mix temporary cement, along with PreVISION CB crown and bridge material, makes it easy for you to offer your patients an attractive, durable temporary restoration – **without mess or mix.**

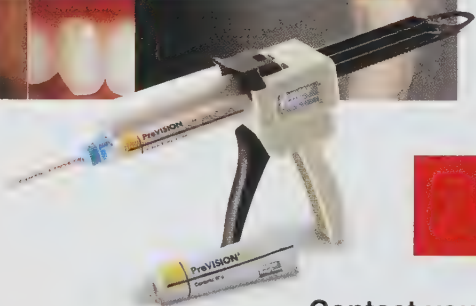

Save time.

PreVISION CB sets in only 90 seconds. Plus, it seats just seven minutes later. This unique material is self-curing either intraorally or on the bench.

Easy to use.

With PreVISION CB, there is no measuring or mixing – snap on a mix tip and go.

Perfect. Temporarily.

A Message from Mayor Mel Lastman

It is with pleasure that I extend greetings and a warm welcome to all delegates attending the 66th annual Winter Clinic hosted by the Toronto Academy of Dentistry.

For dentists, dental nurses and assistants, dental hygienists and exhibitors, this one-day convention offers clinical presentations and a trade show. It is an excellent opportunity for you to discuss issues of mutual interest or concern, exchange ideas, best practices and the latest technological advances in the field of dentistry, renew old friendships or perhaps create new ones and, of course, have a good time.

With so much to see and do in Toronto, I invite you to take time from your busy schedule to explore the thriving neighbourhoods that reflect our ethnic diversity, enjoy international cuisine, world-class entertainment and discover some of the exciting attractions our unique and vibrant City has to offer.

On behalf of Toronto Council and the 2.5 million people of our great City, I congratulate the Toronto Academy of Dentistry and thank the sponsors for making this event possible. To everyone, my very best wishes for a most enjoyable and informative day. It's good to have you here!

Cordially,

Mel Lastman
Mayor

Live Operatory

PATTERSON DENTAL CANADA PRESENTS:

Dr. Gary Glassman Toronto, ON

Approximate viewing time 9:00 – 11:00 a.m.

***Predictably Successful Endodontic Treatment:
Live Patient Demonstration***

About the Clinician

Dr. Glassman graduated from the University of Toronto, Faculty of Dentistry in 1984 and completed his endodontic training at Temple University. He is the author of numerous publications, has been on the staff of the University of Toronto, Faculty of Dentistry and has lectured internationally on Endodontics. Dr. Glassman is the Endodontic Editor for Oral Health Dental Journal and is a Past President of the George Hare Endodontic Study Club. Dr. Glassman maintains a private practice limited to Endodontics in Toronto.

About the Program

With the percentage of dentists incorporating nickel titanium rotary instrumentation into root canal preparation rapidly increasing, this method of cleaning and shaping is the latest of technologies to ensure predictable canal shapes and clean canal walls. The attendee will observe first hand by watching a live patient demonstration through the surgical operating microscope, the use of the "apex last" approach to root canal shaping using the K3™ nickel titanium system, predictable irrigation protocols, and vertical condensation of thermosoftened gutta percha using the Continuous Wave of Vertical Condensation and Obtura II™ gutta percha delivery system. Dr. Glassman will be reinforcing each stage of treatment with a digital presentation on plasma screens placed around the theatre area, combining Power Point™, Flash™ animation, and video clips.

What You Will Learn

Fundamentals of rotary instrumentation. How to achieve optimum canal shapes and clean walls. Apex last technique
Thermosoftened gutta percha filling technique

Who Should Attend?

This live patient treatment program is geared to dentists and their assistants interested in learning the latest techniques in endodontic treatment. The unique nature of this presentation will captivate your attention and send you back to your office with a new level of enthusiasm and quest for knowledge in endodontic therapy.

Dr. Antonio Mancuso, Welland, ON

Approximate viewing time 1:00 – 3:00 p.m.

Direct, All Ceramic CAD/CAM Restorations: LIVE

About the Clinician

Dr. Mancuso graduated from the University of Toronto in 1985. He has written articles for newspapers and has appeared on Canada AM and local cable network. He has published articles for dental journals and is on the editorial board of Spectrum/CJDT. He has lectured in Canada and the United States. Dr. Mancuso is President of the Ontario Academy of General Dentistry and conceived and developed Millennium Aesthetics in Niagara. Dr. Mancuso is in private practice in Welland.

About the Program

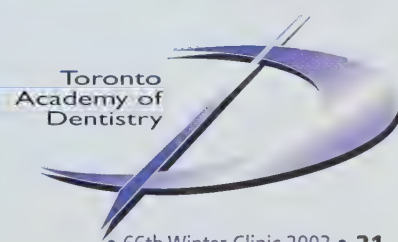

Today's restorative dentist has within his grasp the tools to efficiently create both posterior and anterior all-ceramic restorations in a single appointment. In this presentation Dr. Mancuso will prepare a tooth for a CAD/CAM restoration, capture the image, mill the restoration and cement the final restoration for a patient in the live operatory. Attendees will be able to see first hand on large plasma screen displays every step of the treatment in the smallest of detail and at the same time hear the rationale for each step as the clinician proceeds from start to finish.

What You Will Learn

Fundamentals of CAD/CAM restorations
How CAD/CAM can be incorporated in your practice
Material selection and use in restorative dentistry

Who Should Attend this Program?

This live patient program is geared for everyone involved in restorative dentistry. This cutting edge technology will expand your minds as to what is possible today and how CAD/CAM can revolutionize your practice.

Live Operatory

PRESENTED BY ASH TEMPLE LIMITED

Clinician: Jon Perlus, D.D.S., Dip. Perio

Moderator: Ed Philips, B.A., D.D.S.

Time: 1pm to 2pm – *additional times to be announced*

About the Program

Lasers in dentistry are becoming widely used for Hard and Soft Tissue application. Promoted for painless procedure this new generation of devices has become very reliable and easy to use. The attendee will observe live procedures with Dr. Philips explaining every aspect of the Lasers used and all aspects of the techniques applied.

Please see your Ash Temple representative for live demonstration presentation schedule.

What You Will Learn

Live demonstration of the use of Lasers for sub gingival calculus detection and ablation without the use of anesthesia. How these new methodologies can improve patient care and post op results with minimally invasive techniques.

Who Should Attend?

Dentists, assistants and hygienists interested in learning the newest techniques in Laser applications.

About the Moderator

Dr. Philips past teaching appointments includes Course Director for Aesthetic Dentistry at the University of Toronto Faculty of Dentistry. Senior clinical instructor for Millennium Aesthetics in Niagara etc...

Dr. Philips has been a speaker and presenter for over 14 years having lectured at the ODA Convention, Big Apple Dental Convention, International Conference on Aesthetics, Bombay India and many, many more...

No Problems. Excuses. Kidding.

When you work with Patterson Dental Canada, you get more than a company that simply fills and ships orders.

You work with an established, experienced, 60-year-old company that stands behind every product and every service it offers — guaranteed.

If you're ever dissatisfied with anything, no matter what it is, we'll make it right. No excuses. No kidding.

That's the philosophy we work by and the reason more dentists have come to trust us with meeting all their needs, day in and day out.

At Patterson, we want to be your first choice as a dental dealer.

Call today your Patterson representative to find out **how Patterson's guarantee can be working for you!**

SmileLine

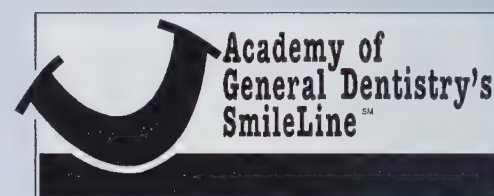

"SmileLine is a toll free dental health hotline that consumers can call to talk one-on-one with a dentist.

During Winter Clinic on Friday, November 14, 2003 consumers will have a chance to get dental advice from members of the Ontario Academy of General Dentistry and Toronto Academy of Dentistry.

Anyone from Ontario with questions or concerns about oral health can call the SmileLine at 1- 888-345-TOOTH (1-888-345-8668) from 9 a.m. to 4 p.m. EST.

The National Smileline was created in 1991 by the Academy of General Dentistry to strengthen and increase consumer awareness about dental health issues. "

To volunteer your time and service please complete the attached form and e-mail back to Dr. Kulwant Turna (You must be pre-registered for Winter Clinic to volunteer):

SmileLine Volunteer Form

Volunteering an hour of your time will help raise public awareness for the Academy while answering consumer's oral health care questions and concerns. Thank you for your cooperation.

- The National SmileLine takes place on Friday, November 14th, from 9:00 am until 4:00pm during the 66th Annual Winter Clinic.
You must be registered for Winter Clinic in order to volunteer.
- Fill in all the information **clearly**; illegible and incomplete forms cannot be processed.
- Deadline for receiving this information is Friday, November 7th, 2003.
- You'll receive a SmileLine volunteer confirmation and instructions form once you have volunteered.

About the Speaker

Dr. Peter Bastian graduated from McGill University where he obtained an Honours B.Sc. degree in Human Anatomy in 1979 and DDS degree in 1983. Dr Bastian has been a member

of the Academy of General Dentistry since 1983 and served as a Delegate in the House several times and on the National Membership Committee. In addition he was Participation Chair for the 2000 Annual Meeting in Toronto and is the past President of the Ontario Academy of General Dentistry as well as past Regional Director for Eastern Canada. HE is currently Director of the Ontario Mastertrack Program. Dr. Bastian is a Master of the Academy of General Dentistry, an alumni of the L.D. Panky Institute, a Fellow in the International Academy of Dental Facial Aesthetics, the Academy of Dentistry International and the American College of Dentists. He maintains faculty appointments at the Esthetic Dentistry Education Center of the School of Dental Medicine, State University of New York at Buffalo and at the Eastman Dental Center of the University of Rochester. He lectures nationally and internationally on Aesthetic and Cosmetic Dentistry.

In addition to his dedication to organised dentistry and teaching, Dr. Bastian maintains a private practice on the outskirts of Toronto with special emphasis on oral reconstruction and cosmetic dentistry

Dentists	

"What's In It For Me?"

Please join us for a lively one-hour lunch and discussion on how you can make a worthwhile and much-needed contribution to your profession. Here's the agenda:

Apathy – How and why we need to prevent this disease.

Rewards – The personal benefits you gain by getting involved in organized dentistry at any level.

Ideas – We need some fresh ones, from dentists like you.

Fun – Find out how contributing your talent can add variety and enjoyment to everyday practice.

Why should you bother with this? Because all healthcare professions are now subject to an increasing level of government scrutiny, and it's important that we safeguard our profession before circumstances or events overtake the situation.

This means we need your help.

Who should attend? All component society executives, all component society members, and everyone who may be thinking about giving organized dentistry the benefit of their knowledge and abilities.

The session will be led by:

Brian N. Feldman, D.D.S. –

Editor of *Ontario Dentist*, the official voice of the Ontario Dental Association. Dr Feldman is also the Editor of *Current Practice*, the #1 Self-Study CE course in Canada, teaches part-time at the University of Toronto and maintains a clinical practice in general dentistry.

Jocelyn Pearce, D.D.S. –

Vice-President of the Ontario Dental Association, Dr Pearce practiced in Toronto for several years, and currently maintains a general dentistry practice in Port Hope. A former dental hygienist, Dr Pearce has been involved in organized dentistry for over 20 years with the RCDSO, CDA and ODA.

About the Speaker

Mark Hyman D.D.S. received his dental degree from UNC School of Dentistry, following which he completed an oral medicine/general practice residency at UNC Hospital in Chappel Hill. He is on the surgical staff of Moses Cone Health System and teaches at the Pankey Institute in Key Biscayne, Florida. Mark is an Adjunct Associate Professor at the UNC School of Dentistry and has lectured at many national and international dental meetings. He has received the Mastership Award of the Academy of General Dentistry.

About the Program

In a passionate, enthusiastic and humorous presentation you will learn the skills determined most critical to know by experienced and highly successful dentists. This is a true Brass Tacks seminar – a “here’s what to do and the best way to do it” course.

After participating in this program you will be ready to blast your practice into levels you never dreamed of.

You Will Learn

The critical issues involved in successful handling of new patients

Techniques for keeping your team focused and enthused-even when things go wrong

How to capitalize on the individual skills of each dental team member and how these skills can improve the productivity of your practice and improve the quality of the service your practice provides

Who Should Attend?

This course is intended for dentists, assistants, hygienists and administrative staff wanting motivated patients who understand, appreciate and ask for treatment.

What others have said about Dr. Mark Hyman

“The best speaker I have ever heard” – Earl Estep, DDS

“A dynamic speaker! You and your team will laugh and learn” – Joe Blacs, DDS

“The rising star of practice management” – Linda Miles

Assistants	Dental Team

About the Speaker

Dr. John Burgess is Professor and Chairman of Operative Dentistry and Biomaterials as well as Director of Clinical Research at LSUHSC-School of Dentistry. He is a prolific researcher and has published over 300 articles, abstracts and textbook chapters. He is active in clinical evaluations of dental materials and is an investigator on clinical protocols evaluating adhesives, fluoride releasing materials, bonded amalgams, posterior composites, impression materials and bleaching agents. Dr. Burgess lectures extensively both nationally and internationally.

About the Program

This clinically oriented course compares new materials and evaluates their clinical success. You will be provided with thoughtful insight on controversies surrounding clinical techniques and be given answers to many of your clinical questions. You will learn what works, and why

You Will Learn: Morning Session

Adhesives

Evaluate six generations of adhesives
Which adhesive systems are most effective and how should they be used
What are the limits of self-etching systems?
How wet, is wet bonding?

Curing Lights

Which curing technique is best?
What curing light is right for you - LED, quartz-tungsten halogen, LASER, or Plasma Arc?

Impression Materials

Evaluate the newest materials-are they improvements?
Are mixing machines for you?
Proper retraction techniques
How to recognize and avoid errors

You Will Learn: Afternoon Session

Anterior and Posterior Composites

Select the right composite
Learn simplified layering techniques to improve esthetics
Achieve tight proximal contacts

Ceramics and Cement Selection

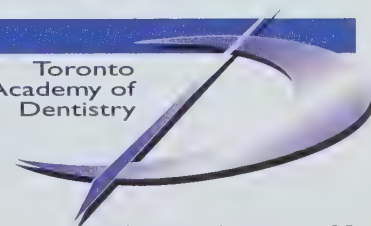

How to avoid post cementation sensitivity
What cement is best for each application?
Veneer cementation and light curing cements
Bonded post technique
Posterior high strength ceramics

Who Should Attend?

This program is geared for dentists; assistants and restorative hygienists who wish to update their knowledge and improve their manipulation and selection of dental materials.

About the Speaker

A recognized authority on memory systems, Bob has spent the last twenty years traveling the globe entertaining and training corporations, governments and associations to adapt memory systems for their particular needs. His programs and workshops have been popular on four continents and as well Bob has written the best selling book "Right Brain Rapid Recall". He has

set new records for the people at Guinness and has had many TV appearances including ABC's Regis Philbin, NBC's Today Show and Ripley's Believe it or Not.

About the Program

How often have you bumped into someone you know or have been introduced to, and for the life of you, can't remember his or her name? Socially this can be embarrassing but in business it can be disastrous.

Bob will share the #1 memory problem in business today - how to recall peoples' names? In his amusing, unusual and empowering presentation, Bob reveals a wonderful method to easily recall and store into memory the names of new friends and business acquaintances. Having been taught the system, participants are quickly and easily able to recall both first and last names of several new acquaintances as they are introduced during the presentation. It's an hilarious system that will have the audience in hysterics.... And it works.

You Will Learn

- How to keep track of detailed information in your mind
- How to remember peoples' names and everything about them
- How to utilize an improvement in your memory to move ahead in your career

Who Should Attend?

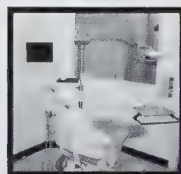

This program is for everyone!

What people have said about Bob Gray and this Program

- "Absolutely great! Outstanding!"
- "Awesome! Great Way to learn"
- "One of the most impactful presentations that I have ever experienced"
- "Our highest rated speaker....ever!"

Treating Breath Disorders with New Materials and Techniques

Louis Malcmacher, D.D.S.
Cleveland, Ohio

Time: 9:00 – 11:30 a.m.

2:00 – 4:30 p.m.

Room: 717AB

Chair: Dr. Nelly Himell
Dr. Gerry Pearson

Of Interest To

Dentists

Hygienists

Assistants

Dental
Team

About the Speaker

Dr. Louis Malcmacher is an internationally known lecturer and author, known for his comprehensive and entertaining style. He works closely with dental manufacturers as a consultant and clinical researcher in developing new products and techniques. Dr. Malcmacher is a contributing editor for *Dentistry Today*, a monthly columnist for *Dental Economics* and

an evaluator for Clinical Research Associates. For two decades Dr. Malcmacher has inspired audiences to truly enjoy dentistry by providing the knowledge necessary for excellent clinical and practice management. His group dental practice has maintained a 45% overhead since 1988.

About the Program

The primary goal of this seminar is to teach the attendees new clinical techniques that will help the dental team treat bad breath complaints. Thorough diagnosis, treatment planning and complete methodology will be covered. This scientific approach will help the dentist feel comfortable with treating malodor symptoms within periodontal and restorative guidelines. This is a service that patients have been requesting and now can be treated. Make sure you bring your staff.

You Will Learn

Incorporating bad breath treatment into your practice
Thorough diagnosis of bad breath symptoms
Oral health products for bad breath-what works and what doesn't and why
The most effective treatment for bad breath that the dentist can monitor and control
Marketing bad breath treatment

Who Should Attend?

Besides the dentist, this course is a must for hygiene and assistant personnel as many of the tasks in treating breath disorders can be delegated.

What Others Have Said About Dr. Louis Malcmacher

"If you haven't heard Louis speak, then run don't walk to his next lecture!" Howard Faran, DDS

"Louis Malcmacher is one of the most exciting, enthusiastic and entertaining speakers in dentistry today. He is on the leading edge of his field". Roger Levin, DDS

Clearing the Ceramic Dust

**Russell Giordano, D.M.D., D.M.Sc.,
F.A.D.M., Cert. Prostho.
Boston, Mass.**

Time: 9:00 a.m. – 11:30 a.m.

Room: 711

Chair: Dr. Carolyn Poon Woo

Of Interest To

Dentists

About the Speaker

Dr. Giordano is an Associate Professor in the Dept. of Restorative Dentistry/Biomaterials at the Boston University Goldman School of Dental Medicine and Course Director of Advanced Biomaterials. His research in dental ceramics is internationally recognized and he is a regular columnist for the Academy of General Dentistry.

About the Program

Restorative materials rapidly appear in the marketplace and also may just as quickly disappear. Often the dental community is the test laboratory for new materials. This presentation reviews the major ceramic systems including conventional metal ceramics, novel metal ceramics (Occlusal Glass), and all ceramics such as the In-Ceram family, Empress, Procera and Dicor. Alternatives such as Captek will be also presented. This lecture discusses clinical selection of materials based on material properties, aspects of cementation and tooth preparation. The background of CAD/CAM systems will be presented and an overview of the presently available and future esthetic milled systems will be discussed.

You Will Learn

What is the difference between major ceramic systems?

How do you decide which porcelain system to use?

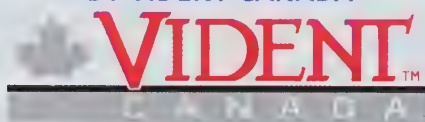

How does tooth preparation and cementation minimize rates of failure in porcelain restorations?

Is CAD/CAM ready for me?

Who Should Attend this Program?

This program is geared for dentists and their laboratory technologists.

Using Nutrition and Exercise to Achieve Optimum Health and Vitality

A Lifestyle Approach

Barbie Casselman, B.A.A.
Toronto, Ontario

Time: 2:00 – 4:30 p.m.

Room: 701B

Chair: Eva Lissia

Of Interest To

Dentists	Hygienists
Assistants	Dental Team

About the Speaker

Barbie Casselman has been showing Canadians for twenty-four years how to eat right, lose weight and feel great. Barbie developed her own line of Spa cuisine and helped Loblaws to develop and market the President's Choice 'Too Good To Be True' line of foods. Barbie is a frequent lecturer and media spokesperson and has hosted her own column 'Nutrition Tips' on CBC TV's Morning News and Newsworld. She is the author of 'Good For You Cooking, a Healthy Eating Guide' and co-author of 'Eat Right for Life: Prostate Cancer Nutrition and You' Barbie has a nutrition based practice in Toronto.

About the Program

Proper nutrition provides the energy to exercise and nutrition and exercise are fundamental to optimum health, permanent weight control and stress management. When it comes to nutrition, and the role nutrition plays in fitness and stress, confusion reigns supreme. Food and supplement manufacturers often mislead us, weight loss clinics rarely offer practical solutions, and family doctors and personal trainers frequently are not trained to educate us. To make matters worse, healthy food can taste pretty awful and most convenience foods are a nightmare of fat and sugar. What can we do?

In this half-day presentation Barbie Casselman will show you how healthy eating can be practical and enjoyable while at the same time providing fuel for physical activities.

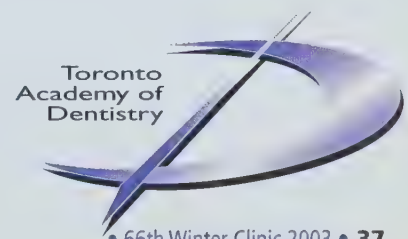

You Will Learn

- The common nutritional myths that confuse us
- Why certain foods enhance energy
- Why certain foods contribute to feelings of ill health and stress
- The role exercise plays in weight control
- The essential components of an exercise program

Who Should Attend this Program?

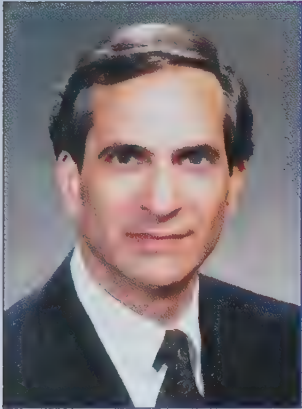

This program will be of interest to anyone wanting to learn more for themselves and for their patients

Stress, Disease, Depression and Dentistry

An Integrative Dental Medicine Approach to Health and Wellness

Alan R. Weinstein D.D.S. Cincinnati, Ohio

Time: 9:00 – 11:30 a.m.

2:00 – 4:30 p.m.

Room: 715

Chair: Dr. Sam Salama

Dr. Jack Wasserman

Of Interest To

Dentists

Hygienists

Assistants

Dental
Team

About the Speaker

Dr. Alan Weinstein has been a featured speaker at many internationally recognized dental meetings including the ADA Annual Session, the Chicago Mid Winter and the Greater New York Dental Meeting. He is a Fellow of the International College of Dentists and has faculty affiliation with the Cincinnati Children's Hospital Medical Center. Dr. Weinstein has published articles in

the Journal of the American Dental Association, Dental Clinics of North America and Dental Economics. He maintains a private practice in dentistry that emphasizes conservative aesthetic and preventive restorative dentistry.

About the Program

About half of us seem to naturally cope with stress well, while others do not, and the impact to our overall health as well as dental health can be profound. The relationship between emotions, stress, immunity, disease, depression and burnout will be discussed as well as evidence based coping strategies to promote wellness. As well, domestic violence and how it relates to dentistry and to our own lives will be discussed.

Morning Session

Mind/Body Health and Dentistry - Self-Awareness and Emotional Balance

Treating patients in a health-centered way

Stress, immunity and periodontal disease

Xerostomia - periodontal/restorative factors

Esthetics, function and emotional health

Stress, diabetes, heart disease and depression - positive coping strategies

Coping with anger and anxiety

Afternoon Session

Managing Stress, Achieving Wellness and Personal Growth

"Emotional intelligence" and its importance to our physical and mental health

Raising self esteem

Improving interpersonal relationships

Putting 'integrative dental medicine' into your office

Understanding domestic violence

Who Should Attend?

This program is excellent for dentists, hygienists, assistants, administrative staff and dental students

The Road to Excellence in Esthetics

Damon Adams, D.D.S.

Salem, Oregon

Time: 9:00 – 11:30 a.m.

2:00 – 4:30 p.m.

Room: 703

Chair: Dr. Murray Wagman

Dr. Jack Fingrut

Of Interest To

Dentists

Assistants

About the Speaker

Dr. Damon Adams is an internationally recognized lecturer who has successfully pursued and enjoyed dentistry as a teacher, laboratory consultant and private practitioner. His programs present a variety of philosophical and clinical concepts from the dental laboratory perspective. He is a graduate of the University of Michigan School of Dentistry and has written numerous articles for Dentistry Today, Atlanta Dental Consultants and dental laboratory literature.

About the Program

Modern dentistry is exploding with new techniques, new materials and rapidly expanding business opportunities. Dr. Adams will teach and challenge you and your staff in your quest for clinically relevant knowledge. New ways to view how to approach your restorative treatment options will be presented. Many of the factors that can dramatically improve the relationship you have with your laboratory and the work they send back to you will be discussed. In this dynamic and interactive seminar, Dr. Adams will share his unique experience and knowledge to help make your practice more rewarding and profitable.

You Will Learn

- What your laboratory really wants to know
- Preparation goals for laboratory fabricated restorations
- Ceramics – so many options
- How to achieve more satisfying outcomes and reduce error
- Photos your laboratory needs and why
- Shade selection – is it time to buy new shade taking technologies
- How your laboratory technologist can be your ally from treatment planning through preparation and completion

Who Should Attend?

This seminar is highly recommended for dentists, their technologists and their assistants.

What others have said about Damon Adams, D.D.S.

"Every dentist we work with should have been there to hear what you had to say. You are a real champion of the dentist-laboratory relationship"

"Undoubtedly one of the most informative, eye opening courses I've experienced"

"I believe the guts of your presentation is integral to our clinical success in comprehensive restoration, yet much of this material is sorely missing from most advanced restorative curriculums"

The Ontario Society of Periodontists Presents The Charles H.M. Williams Memorial Lecture

A respected and eminently successful practitioner, a teacher who inspired students with high ideals of service and manhood, a gentleman to whom honours are most deserving and modestly received, the Ontario Society of Periodontists proudly present this lecture in his name.

Anne D. Haffajee, B.D.S. Boston, MA

Time: 9:00 - 11:30 a.m.
2:00 - 4:30 p.m.

Room: 714A

Chair: Dr. Alan Winnick & Dr. Dakin Lee
Dr. Alan Winnick

Of Interest To

Dentists

Hygienists

About the Speaker

Dr. Haffajee is a Senior Member and Chair of Department of Periodontology at the Forsyth Institute. The focus of her current research is the effect of different periodontal therapies on clinical and microbiological parameters of periodontal diseases. She has published over 100 articles and is on the editorial boards of the Journal of Clinical Periodontology, Journal of Periodontology and Oral Microbiology and Immunology.

About the Program A.M. Session

Periodontal diseases are infections caused by species found in the plaque and biofilm that develops below and above the gingival margin. Of the 600 species that colonize in the gingival crevice area only a few are thought to be important in the etiology of periodontal diseases. Recent studies indicate that periodontal pathogens can be found in periodontally healthy individuals. This program will discuss periodontal therapies that can reduce the level and proportions of periodontal pathogens and that are associated with a beneficial clinical response.

P.M. Session

Treatment of periodontal diseases involves mechanical debridement, chemotherapeutics and surgical intervention. Current research suggests combining these approaches may lead to better clinical outcomes. The afternoon session will expand upon the morning's program and discuss the control of the microbiota involved in periodontal diseases by these 3 general approaches. At the end of this presentation the participant will better understand the appropriate application of scaling and root planing, the use of systemic and locally administered antibiotics and when surgical intervention is necessary.

You Will Learn

- Which are the 'bugs' that are implicated in periodontal diseases?
- What effect do local and systemic factors have on periodontal diseases?
- What therapies are available to treat periodontal diseases, what works and why?
- When are chemotherapeutics both locally and systemically applied indicated?
- When is it time for surgical intervention?

Who Should Attend this Program?

This program is geared for general practitioners who diagnose and treat periodontal diseases and their hygienists.

Thank you to the Ontario Society of Periodontists for their assistance

Smart Moves for the Dental Team - Solving Related Pain in Clinical Dentistry

(p.m. session)

Bethany Valachi, MS., PT., CAES Portland, Oregon

Time: 9:00 - 12 noon
2:00 - 5:00 p.m.

Room: 701A

Chair: Angie Kaidonis
Linda Cowan.

Of Interest To

Dentists	Hygienists
Assistants	Dental Team

About the Speaker

Bethany Valachi received her Masters degree in physical therapy from Pacific University and is a practicing physical therapist. She is a Certified Ergonomic Assessment Specialist and is the co-founder with her husband Keith Valachi, D.D.S. of Posturdontics and an in-office ergonomic consulting business.

About the Program A.M. Session

Hygienists face musculoskeletal problems that are unique to their profession. This specialized course for hygienists focuses primarily on risk factors and preventive strategies for musculoskeletal disorders of the upper back, neck, shoulder and wrist.

You Will Learn

- Ergonomic implications of instruments, gloves and handpieces
- Positioning strategies for operator and patient
- Comprehensive review of magnification systems
- Specific chairside stretches
- Specific strengthening exercises for the upper back and shoulder
- Anatomy, symptoms and mechanisms of injury

Who Should Attend?

This program is geared specifically for the dental hygienist.

About the Program for Dentists, Hygienists & Assistants -P.M. Session

Pain in the back, neck, shoulders and hands is common among dental professionals. Created by a physical therapist, this dynamic presentation provides a wealth of effective information that will empower participants to manage and prevent musculoskeletal problems associated with the delivery of clinical dentistry. Attendees will walk away with knowledge and techniques that can be applied immediately to improve the quality of lives and career longevity.

You Will Learn

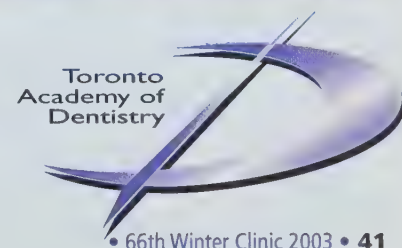

- Symptoms and mechanisms of injury for which dental professionals are at highest risk
- Selection and proper adjustment of operator chairs and magnification systems
- Proper patient positioning
- Trigger point therapy in the office
- Proper body mechanics

Who Should Attend?

This program is geared for all members of the dental team who are providing and assisting in chairside care.

What Others are Saying about this Program

- "I wish I had learned these techniques many years ago"
- "An excellent and personable speaker"
- "An extremely important course for dental professionals"

Diagnosis of Longitudinally Fractured Teeth

Eric Rivera, DDS, MS
Chapel Hill, NC

Time: 2:00 – 4:30 p.m.

Room: 707

Chair: Dr. Shayne Lipton

Of Interest To

Dentists

About the Speaker

Dr. Rivera is an Associate Professor and Assistant Graduate Program Director at the University of North Carolina School of Dentistry. He has served as Section Editor for Endodontics of Quintessence International Dental Journal, and is on the Scientific Review Panel for the Journal of Endodontics, the Journal of Dental Education and Oral Surgery, Oral Medicine, Oral Pathology, Oral Radiology and Endodontics. He is currently a Director for the College of Diplomates of the American Board of Endodontics.

About the Program

This seminar will teach the clinician to identify and accurately diagnose the fractured tooth and discuss treatment rationale and alternatives. The discussion will also identify information that the patient and dentist must consider regarding the prognosis of the fractured tooth.

You Will Learn

Fracture types: craze line, cuspal fracture, cracked tooth, split tooth, root fracture
Typical characteristics of fractured teeth
Diagnostic Aids in locating fractures in teeth
Rationale for treatment of fractured teeth
Information that the patient must know regarding the prognosis of fractured teeth

Who Should Attend this Program?

This program is geared for dentists who wish to improve their diagnostic skill in evaluating and then treating longitudinally fractured teeth.

Barbara J. Allen, B.Sc., C.F.P., F.L.M.I.

Toronto, ON

Time: 9:00 - 11:30 a.m.

Room: 705

Chair: Dr. Ray Barakauskas

Of Interest To

Dentists

About the Speaker

Barbara Allen is an Investment Planning Consultant with Professional Guide Line Inc. - a CDSPI Affiliate. She has more than 20 years experience in the financial services industry including life insurance and executive financial planning.

About the Program

Getting one's personal finances onto the right track is as much an awareness of what not to do as it is of doing the right things. This discussion will include cash management, income tax reduction, debt reduction and savings plans. Young people just starting out will develop a road map for the future in personal finances and will provide solutions for common financial concerns.

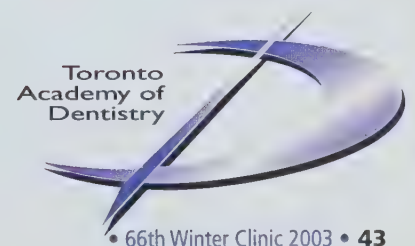

You Will Learn

- Know where your money goes
- Simplify banking
- Manage debt and credit
- Minimize income tax
- Purchase vs. lease a vehicle - new or used
- Life insurance, property insurance, disability insurance
- Smart investing - tax consideration, risk tolerance, hidden costs
- Exit strategy - retirement and estate planning

Who Should Attend?

This program is specifically aimed at young dentists just starting their career who wish to learn the tips and traps of money management and asset protection. Dentists in any phase of their career are welcome.

SARS, West Nile Virus and Antibiotic Resistance

Just a Glimpse of What the Future Holds in Store

Lionel A. Mandell, MD, FRCPC
Hamilton, ON

Time: 9:00 – 10:00 a.m.

Room: 701B

Chair: Dr. Lynn Tomkins

Of Interest To

Dentists

Hygienists

Assistants

Dental
Team

TORONTO TOWER POWER HOUR

About the Speaker

Dr. Mandell is Professor of Medicine and Chief of Infectious Diseases at McMaster University. He has been invited to 58 countries around the world as a visiting professor, guest lecturer or

consultant and has won many international awards. He sits on the editorial board of 12 medical journals and has authored 190 scientific papers and book chapters.

About the Program

Until a few short months ago none of us had even heard of SARS and West Nile Virus had only recently made it into the medical lexicon. This talk will provide an overview of both of these disease entities including their etiology and epidemiology, clinical findings, diagnosis, treatment and prevention (if any). We will also discuss the general mechanisms by which bacteria become resistant to even our newest antibiotics and how microbes despite not having a single neuron continue to outsmart even our best pharmaceutical chemists, scientists and physicians. Measures we can implement to prevent the spread of antimicrobial resistance will be discussed as well.

Who Should Attend this Presentation?

This program is geared for the entire dental team.

Adolescence: The Stormy Years

Ronald M. Clavier, Ph.D., C.Psych
Toronto, ON

Time: 10:15 – 11:15 a.m.

Room: 701B

Chair: Dr. Sheldon Cooper

Of Interest To

Dentists	Hygienists
Assistants	Dental Team

TORONTO TOWER POWER HOUR

About the Speaker

Dr. Ronald Clavier is a Clinical Psychologist, in private practice, focusing on general adolescent and adult psychotherapy and counselling. He has spoken to students, parents and educators on subject matters relating to adolescent development, family communication and drug and alcohol awareness. He has appeared on radio and television and is the author of the soon to be released book "Adolescence". Dr. Clavier has published over 30 scientific publications and hosted a 13 episode television series in 2002. He is presently a drug education consultant for the Council on Drug Abuse.

About the Program

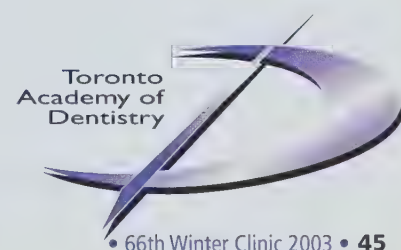

Psychologists have called adolescence "the stormy decade" because of the many difficult issues that face young people and their families during these years.

The goal of this program will be to provide practical support and constructive suggestions for effective parenting and to assist those who have adolescents in their practice in understanding the complexities that these young people and their families face.

Who Should Attend this Program?

This is a valuable program for parents and professionals alike who deal with adolescents either at home or in the office.

DONATION TO THE COUNCIL ON DRUG
ABUSE ON BEHALF OF DR. CLAVIER

You Are the Boss!

Voula Michaelidis, B.Sc. (O.T), M.A., LLB
Toronto, ON

Time: 2:00 – 3:00 p.m.
Room: 711
Chair: Dr. Rollin Matsui

Of Interest To

Dentists

Hygienists

Assistants

Dental
Team

TORONTO TOWER POWER HOUR

About the Speaker

Voula Michaelidis is a lawyer at Kuretzky Vassos LLP and practices in the area of employment law and labour law. Prior to attending Law School, Voula obtained a Bachelor of Science in Occupational Therapy and a Masters of Arts in Applied Developmental Psychology giving her a unique background in health care as applied to her legal practice.

About the Program

If you run your own dental practice, you are likely to employ a number of individuals to work on your team. As an employer, you have certain rights and obligations under the Employment Standards Act and the common law. This presentation will focus on some of these rights and obligations including hiring and termination practices and maintaining proper employee records. Also, certain members of your team, such as associate dentists may be independent contractors rather than employees and the difference between independent contractors and employees will be reviewed.

You Will Learn

Know the law!

What are your rights and obligations as an employer?

What are your rights and obligations as an employee?

Who Should Attend this Program?

This program will present information that anyone who is an employer must know and should be of interest to those who are employed as well.

Full Service means more than just creating all types of restorations. It involves proper Case Planning, assistance from knowledgeable technicians with a team approach. Baluke Dental Studios, a Premier full service laboratory, Exceeding Expectations!

Yours for better dentistry

How to Make Your Lawyer's Job Easier (and your future rosier) with the RCDS Discipline Committee

Ted Kerzner, B.A., LLB

Toronto, Ontario

Time: 3:15 – 4:15 p.m.

Room: 711

Chair: Dr. Minna Stein

Of Interest To

Dentists

TORONTO TOWER POWER HOUR

About the Speaker

Mr. Ted Kerzner has been engaged in health discipline cases since the early 1970's. He has served as counsel to the Ontario Health Disciplines Board and has contributed to the legal literature both as an editor and author for a number of Canadian legal publications. Mr. Kerzner has a teaching appointment in the Law Society's Bar Admission Course and presents lectures to

lawyers in continuing legal education.

About the Program

Many of the things you should or should not do, running the gamut from record keeping, through maintaining good staff relations (even after they leave), to swallowing your pride that is sometimes practical to do at the Complaints Committee level and avoid referral to the Disciplines Committee will be discussed in this presentation.

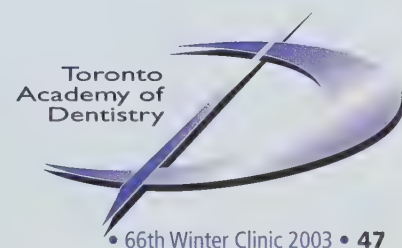

Who Should Attend this Program?

This program is geared for dentists both new and established who wish to learn preventive strategies to avoid discipline hearings.

Dental
Team

TORONTO TOWER POWER HOUR

About the Speaker

Dr. Lou Shuman serves as Vice President of clinical education for Align Technology, the inventor of Invisalign®. He is responsible for creating and driving the clinical educational needs for the company in North America.

About the Program

Every one is talking about it. Dr. Shuman will introduce the concept of Invisalign®, orthodontics without wires or brackets, in this power hour presentation. Said to be one of the greatest advances in years, Invisalign has revitalized many practices and provides a new mode of treatment that can be easily integrated into your daily practice. Don't miss out on this opportunity to learn about this fascinating concept. Invisalign® is an orthodontic discipline. Concepts and practical applications will be introduced. The manufacturing process of the Invisalign® appliances and the software that allows you to visualize your case from start to finish will be presented, as well as numerous case histories selected from the more than 100,000 cases that are currently in treatment.

You Will Learn

What is Invisalign®?

The six steps to clinical success

Provide your patients with a greater range of treatment options

How Invisalign® will increase your production and patient base

Who Should Attend this Program?

This presentation is geared for the entire dental team interested in developing a new and exciting mode of treatment to their dental practice.

When to Extract and How to Restore - Decision Making for the Small Edentulous Space

Izchak Barzilay D.D.S., Cert. Prosthodontics, M.Sc.
Toronto, ON

Time: 10:15 - 11:15 a.m.

Room: 714B

Chair: Dr. Peter Tonisson

Of Interest To

Dentists

TORONTO TOWER POWER HOUR

About the Speaker

Dr. Barzilay is an Assistant Professor at the University of Toronto Faculty of Dentistry and Head of the Division of Prosthodontics and Restorative Dentistry at Mount Sinai Hospital, Toronto. He has published numerous articles and has received many awards including the A.B. Hord Master Teacher Award.

About the Program

This presentation will discuss how far we should go to maintain a tooth and when it is time to stop treating and face the option of removal. Once a decision has been made to remove a tooth, treatment choices will be discussed including implant replacement, fixed prosthesis, resin bonded prosthesis and removable prosthesis. Suggestions will be made when to use each of the options.

You Will Learn

What is needed to restore a severely compromised tooth and is it realistic?
What are the treatment options to replace a tooth in a small edentulous space?
When is the right time to consider removing a tooth and its replacement?

Who Should Attend this Program?

This program will be most valuable to dentists who are confronted with the dilemma of treating compromised teeth and when it is best to remove them and consider replacement options.

Introducing Digital Radiography to Your Practice

Grace Petrikowski, D.D.S., M.Sc., F.R.C.D.(C)
Toronto, Ontario

Time: 3:15 – 4:15 p.m.

Room: 714B

Chair: Dr. Ron Richardson

Of Interest To

Dentists

Hygienists

Assistants

Dental
Team

TORONTO TOWER POWER HOUR

About the Speaker

Dr. Petrikowski is an Oral and Maxillofacial Radiologist and is currently an Associate Professor at the Faculty of Dentistry, University of Toronto. She is the Director of the undergraduate radiology program and participates in undergraduate and graduate teaching. Dr. Petrikowski also maintains an active oral radiology practice and consultation service.

About the Program

Digital radiography is gaining in popularity and many dentists are thinking about converting to filmless technology. In this presentation, digital imaging technologies will be reviewed with an emphasis on factors to consider in the decision to 'go digital' and problems that may arise once the equipment is in use. This information will aid participants in making an informed decision about introducing digital radiographic imaging to their practice.

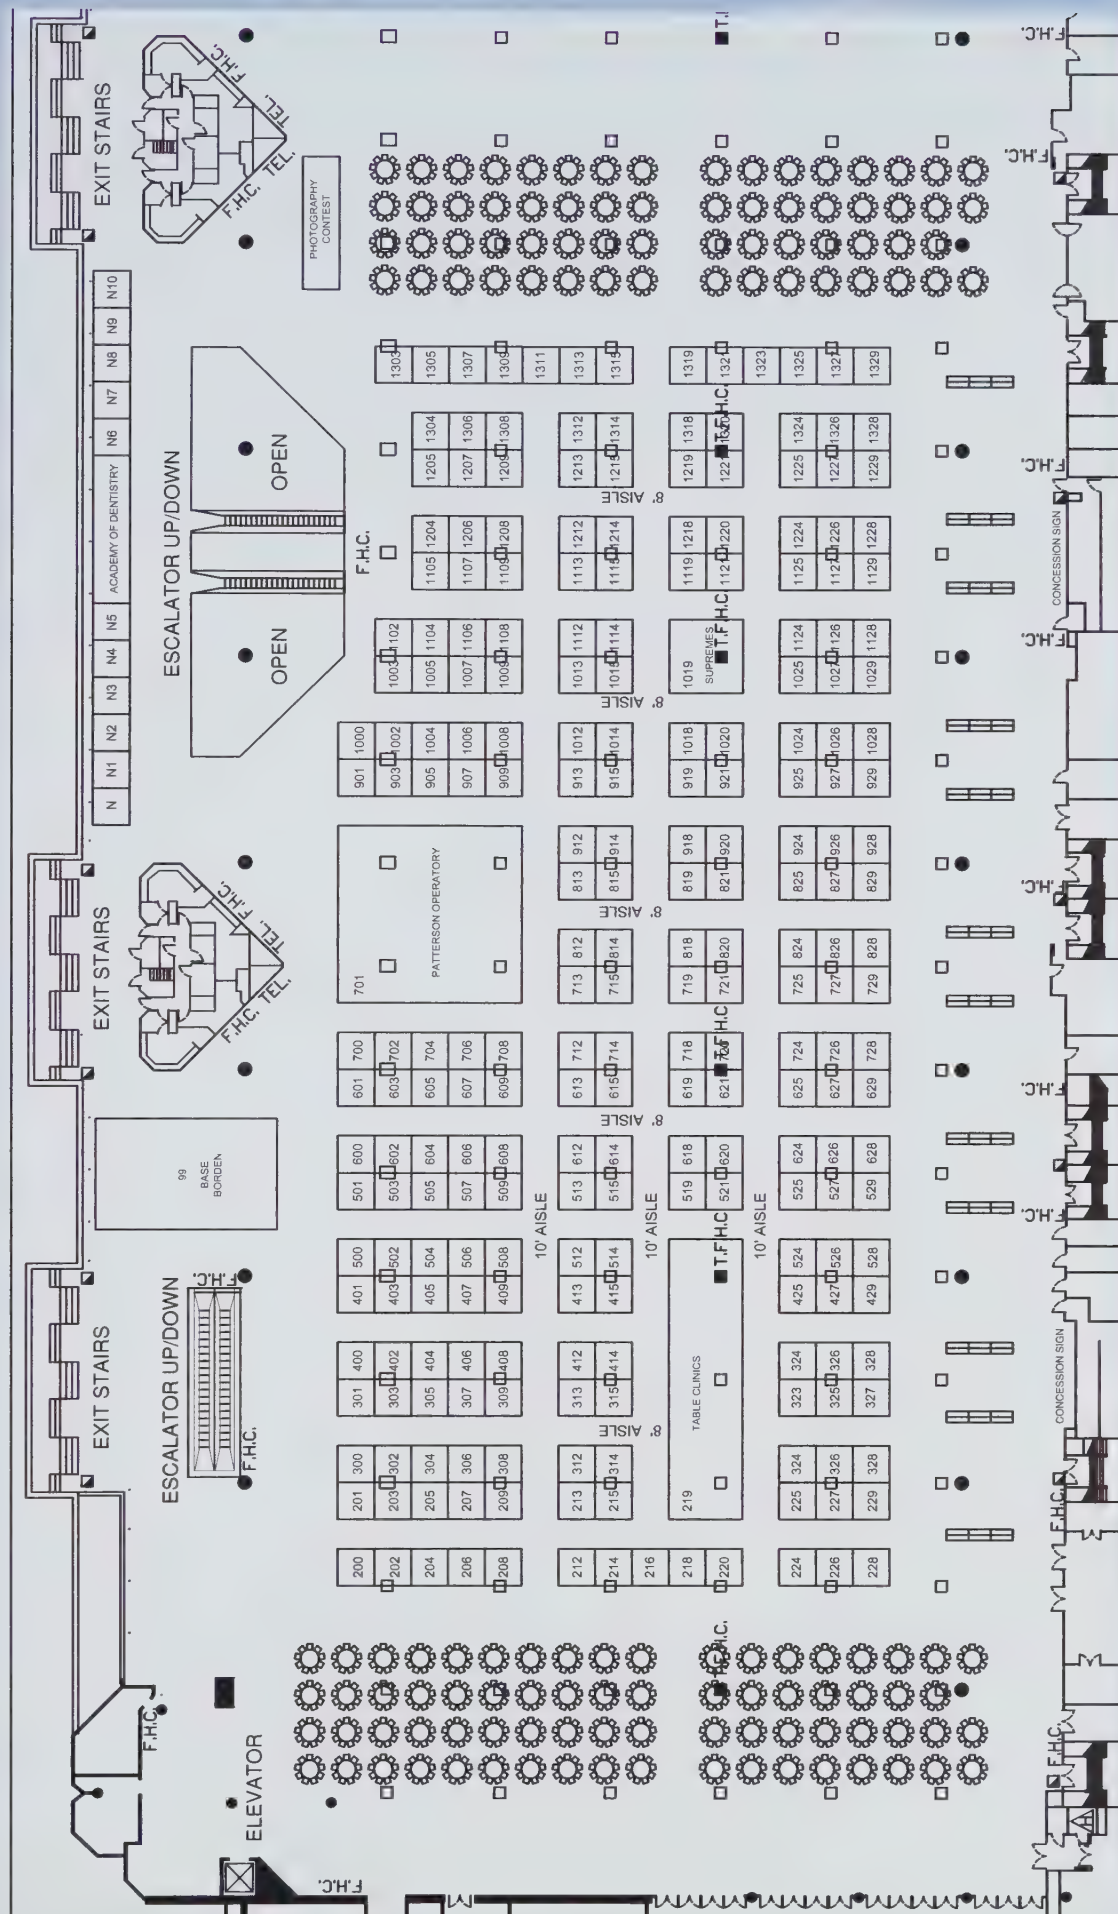

Who Should Attend?

This program is geared for dentists who would like to learn the pros and cons of digital radiography.

Toronto Academy of Dentistry Services and Events

Meetings:

Planning a Meeting? Contact the Academy Office at (416) 967-5649 and we will record the date on the calendar and will inform you if there is a conflict with another meeting. Please advise speaker, location and contact person.

Our website at **www.tordent.com** lists all dental meetings recorded at our office and is updated monthly.

Associate Placement Services:

Looking for an associate in Metropolitan Toronto?
Looking for an associateship?
Call the Academy Office at
(416) 967-5649.

Emergency Services:

The Academy offers a daytime referral service as well as after hours emergency service.

There is only one telephone number for patients to call during the day and after hours, **(416) 967-5649.**

After hours the number is call forwarded to an answering service. Leave only **(416) 967-5649** on your answering machine.

DAYTIME HOURS MONDAY - FRIDAY:

8:30 a.m. - 4:30 p.m.

AFTER HOURS:

Weekdays - 4:30 - 11:00 p.m.

SATURDAY, SUNDAY, HOLIDAYS and any day the office is closed:

9:00 a.m. - 11:00 p.m.

If you are interested in becoming a member of the After Hours Emergency Service and your practice is in Metropolitan Toronto and you are an ODA member, please call the Academy office at (416) 967-5649.

Every patient treated by an Emergency Service dentist on call is given a treatment record to take back to the patient's regular dentist.

Dr. Elliott Weinstein

Chairman, Emergency Services

2003 Brush-A-Mania Prevails

The Toronto Academy of Toronto thanks The Toronto Central Dental Society, The Toronto East Dental Society, The North Toronto Dental Society and The West Toronto Dental Society for helping to make Brush-A-Mania such a success this year.

Undaunted by the ice storm of 2003, volunteer dentists from across Toronto joined together on Friday, April 4th to participate in the third annual Brush-A-Mania event.

The program, a joint initiative of the Toronto Academy of Dentistry, the Four Toronto ODA Component Societies and the Rotary Clubs of Toronto, is designed to reach out to elementary school children and motivate them to embrace good oral hygiene habits. Children learned, in a fun and interactive format, about the oral and general health benefits of brushing, flossing, regular preventive dental visits and nutrition.

At precisely 10:20 a.m., all of the children from the participating schools carried out a simultaneous three-minute brushing. This year, we are happy to report that the program was enjoyed by over 26,000 school children in 76 schools. The feedback received from school administrators, teachers and students alike was overwhelmingly positive.

Once again, thanks and appreciation go out to all the dentists and dental auxiliaries who volunteered their time and enthusiasm to participate in this most worthwhile and positive program.

The generosity of the various corporate sponsors of the event is also much appreciated, as their contributions helped to offset the cost of loot bags provided to all of the participating children and printed material provided to the schools. Finally, thanks and congratulations to the organizing committee, once again chaired by Dr. Raffy Chouljian, for another outstanding effort.

The committee has already tentatively chosen Wednesday April 21, 2004 as the date for Brush-A-Mania 2004, and has set a lofty goal of involving 50,000 children in next year's event.

Please consider helping to make the 2004 Brush-A-Mania even a bigger success.

Allan Katchky, DDS

Toronto Academy of Dentistry Service Award

John Paterson, R.T.

John was born and raised in Winnipeg, Manitoba. He trained as a Radiological Technologist at the Winnipeg Health Sciences Centre and from there became Chief Technologist at the Children's Hospital of Winnipeg.

John joined Kodak Canada in 1968 and spent a most illustrious and industrious 35-year career until his retirement in the early part of 2003. During his extremely busy life, John has had many varied assignments such as Market Director of the Dental Business in Canada, and President and Past President of the Dental Industry Association of Canada. Currently, John is a Board Member of Dentistry Canada Fund as well as a Director, Advisory Council of Dentistry Canada Fund. John was Chairman of Dentistry Canada's Gala event held at the Royal York in May of this year.

Since his so called retirement, John has been working part time for Microbrush Corporation which leaves just enough time for a few of his favourite things, golf, traveling and one or two good cigars on occasion.

John has been happily married to Marcia for 38 years and they are very proud of their two daughters. In September, Heather, will be entering third year law at Queen's University and Julie is a social worker in Prince Rupert, B.C. Julie and her husband Sal have a son Jack as well as a newborn daughter Ruby Ann Lenora.

The Toronto Academy congratulates John on all his past achievements and wishes him every success in all future endeavours.

Service Award Recipients

Mr. Stewart Cannon, 2000

Mr. John C. Gillies, 2001

Mrs. Raisyl Wagman, 2002

Mr. John Paterson, 2003

You've Helped Us Help Others

The Toronto Community Professional Dental Association continues in its efforts to donate to worthy beneficiaries.

Each year endowments are made based on the following categories:

Toronto Based	Dental Related
Child Oriented	Education/ Research
Challenged Individuals	Deprived Individuals

The dental profession and the dental industry continue to support the Academy's continuing education programs and social events and as a result in 2003 the Toronto Community Professional Dental Association was able to make donation to:

Children's Aid Foundation: \$40,000.00

Kids Help Phone: \$15,000.00

The Toronto Community Professional Dental Association, through its Endowment Fund, established the Toronto Academy of Dentistry Dental Fund at the Children's Aid Foundation. This fund services some of the 40,000 children in Metropolitan Toronto under the auspices of The Children's Aid Society, the Catholic Children's Aid Society and The Jewish Family and Child Services. The monies raised has helped approximately 60 children who otherwise would have been unable to receive those services so essential to their dental and emotional well being.

Last year, through ticket and auction sales at the Teddy Bear Affair, we donated \$36,000.00 to the Toronto Academy of Dentistry Dental Fund, bringing our total to \$337,000 over 8 years.

This year's black tie gala will be held on Saturday, November 22nd, 2003. Please consider joining us as all funds generated through Academy members go directly to our dental fund at the Children's Aid Foundation.

The *Teddy Bear Affair* attracts 900 of Toronto's corporate and social elite and it is considered by many to be the best gala in the city, raising funds for thousands of high-risk children.

The Toronto Academy of Dentistry, through The Toronto Community Professional Dental Association thanks the profession and the dental industry for enabling it to continue to identify and support worthy causes in the Greater Toronto area.

L to R: Dr. Arnie Weingarten, Mrs. Raisyl Wagman, Dr. Warren Hing, Dr. Phil Shedletsky & Dr. Ron Richardson

Cardiac Ski Day 2003

By Judy Carlyle

The Toronto Academy of Dentistry and the Canadian Cardiac Rehabilitation Foundation held their joint Ski Day on March 7th, 2003 at Osler Bluff Ski Club in Collingwood. This successful event was co-chaired by Dr. Phil Shedletsky and Dr. Tim Milligan.

The ski conditions were perfect, the participants were in a party mood and the surroundings were absolutely beautiful. The bus arrived from Toronto about 9:30 a.m. and after a fast breakfast provided by Tim Horton's, everyone was on the slopes in no time. There were complimentary beginner ski lessons and a ski race was held where the only competition was with oneself.

After a BBQ lunch provided by A & P of Collingwood, Gordon Food Service and Yves Veggie Burgers, it was back to more skiing until the Après Ski Party and the closing of the silent auction. The participants had a variety of auction items to bid on, including theatre tickets, cases of wine, walkie-talkies etc. The Live Auction offered up such items as a Champagne ride in the Remax Hot Air Balloon, a snowboard and a weekend at the Briars with the use of a Lexus, just to name a few.

The bus headed back to Toronto about 5:30 p.m. with many tired but happy skiers aboard. Our thanks to Coach Canada for providing the complimentary transportation.

If you would like to receive information about Cardiac Ski Day 2004, please call Judy at the CCRF office, 416-730-8299.

CIT Toronto Dental Charity Golf Tournament

Davina, who was the Ambassador at our first Bloorview MacMillan fund raising tournament 12 years ago, and is now 17, returned this year and spoke beautifully about her life and how The Bloorview MacMillan Children's Foundation has helped her and so many other children. She made everyone feel proud of his or her support for the Foundation.

Pina Blakley of Wright Dental, who sponsored the Putting Contest, presents a cheque to Kirk LeMessurier, Communications Officer of The Bloorview MacMillan Children's Foundation.

A highly successful and sold out tournament was held at Copper Creek Golf Club on Friday June 20, 2003. All proceeds from registrations, raffles and auctions go to Bloorview MacMillan Children's Foundation, which we have been supporting for the last 12 years. CIT Financial has been our loyal tournament sponsor since the onset of this annual charitable event. With the four component societies joining the ranks a few years later. To date we have donated \$200,000 from these tournaments through the valued support of dentists and the dental industry. We look forward to continuing support of this worthwhile cause for years to come.

Thank you to Teresa Kambasis and the Bloorview volunteers for their assistance on the day. Thanks also to Ken Croney for selling raffle tickets and to Dave Lind & Stew Cannon for selling hole sponsorships.

2004 DATE – FRIDAY, JUNE 18TH at COPPER CREEK GOLF CLUB, KLEINBURG

Mediations Report

Gilbert Chapnick, D.D.S., F.I.C.D. Mediations Co-ordinator

Dentistry continues to undergo many changes. What began with pain management and repair has progressed to restoration of dentitions, preventive care and now elective cosmetic dentistry. Advancing technology, new materials, infection control and the governing of our profession indeed makes many challenges upon the dental professional.

Our patients are fortunate. Dentists are caring, well educated and trained members of the health profession. However, occasionally patients become dissatisfied with the care that they receive and seek to have their problems resolved when they feel they have been wronged. How can we minimize these occurrences and how can we encourage healthy relations with those who entrust our care to them?

Trust is the oil that keeps relationships running smoothly. The dentist and the entire dental team must strive to develop and maintain this trust with our patients.

To foster trust we must communicate with our patients clearly and consistently. Carefully explain each treatment plan, offer alternate treatments and always discuss the consequences of delaying or not proceeding with care. Some patients may require more information than others and we must treat everyone as individuals and tailor the information that we provide accordingly. Once treatment has been completed, review with the patient what has been done and prepare them for what they can expect in the hours after treatment.

Meet and exceed your patients' expectations if you can. It is the little personal things that patients remember. A friendly, courteous compassionate and understanding environment goes a long way to say, "we care about your care".

When problems arise and patients question the care they have received, keep your emotions in check as getting emotional can impair your ability to think clearly and objectively. Be honest, recognize that the patient may view things differently than you and everyone has the right to their own opinion whether or not you agree with it. Anticipate questions, and when they arise try to answer them completely and directly. Attempt to come to an amicable agreement and understanding. Sometimes this is not possible and outside help is needed.

Our four local societies Mediations Committees are entrusted to deal with such problems and you can avail yourself of their help. In the past year we have reviewed and mediated 24 problems. In addition The Toronto Academy of Dentistry office staff listen to many phone calls from patients questioning the care they have received and attempt to quiet ruffled feelings before the situation escalates to a formal complaint.

On behalf of our Academy I would like to thank the members of our Mediations Committees and our office staff for the care and consideration that they show in dealing with these situations.

Congratulations

Each year the University of Toronto, Faculty of Dentistry awards prizes donated by the Toronto Academy of Dentistry.

The awards are given to two outstanding students in the department of Paedodontics (4th year) and in Community Dentistry (3rd year).

The 2002-03 Winners: Ms. Juiliana Mae Paris, Paedodontics
Ms. Carilynne Yarascavitch, Community Dentistry.

Past Presidents

The Past Presidents of the Toronto Dental Society are identified as Past Presidents of this Academy. Below is a list of Past Presidents from 1891 to 2003.

92-92	N. Pearson*	30-30	T.E.C. Butler*	68-68	Gordon M. Marshall

Honourary Life Membership 2003

GARY E. PITKIN, D.D.S.

Written by Dr. Peter Markle

The Toronto Academy of Dentistry is pleased to award its Honourary Life Membership to Dr. Gary Pitkin in recognition of his outstanding contribution to dentistry and his community.

The decision to select a recipient for the Honourary Life Membership in the Toronto Academy of Dentistry is not made lightly. Dr. Gary Pitkin fits all the criteria that make this selection easy.

Gary was born, raised and educated in Toronto. Following high school, at St. Michael's College School, Gary entered the University of Toronto, Faculty of Dentistry in 1961. Even in University Gary was involved first as an executive member of the Dental Students' Society, and later on as a contributor to the faculty yearbook, the Hya Yaka, of which he became editor in 1965-66. Gary entered practice in 1966 in Agincourt (now Toronto) where he practises to this day.

Early on Gary became interested in serving his profession, and in 1970 he joined the Executive of the Toronto East Dental Society, becoming President in 1973. Gary returned to the society and served as a Councillor from 1993-2000.

The Ontario Dental Association beckoned and from 1975-1981 and 1995-1996 Gary was on the ODA Board of Governors serving in many positions.

From 1977-1981 Gary served on the ODA Executive Council as Chair of the Management Committee in 1978-1979 and then served as President from 1979-1980.

Not satisfied with this milestone, Gary was elected from District 4 to the Council of the RCDSO in 1983, and served as its President from 1985-1986. He also served on, and chaired many committees until 1991. He was so effective that he was appointed to serve on the Complaints Committee again from 2001-2002.

Gary has an insatiable curiosity, and early in his dental career he became interested in dental education. Along with Drs. Peter Markle and Howard Dexter he launched a three projector slide presentation on auxiliary utilization, which was presented at the Academy of Dentistry's Winter Clinic in 1974, and at the Detroit Dental Society in 1975. This format was, as many thought, well ahead of its time. He lectured on Conscious Sedation in Thunder Bay in 1971, and at Winter Clinic in 1979.

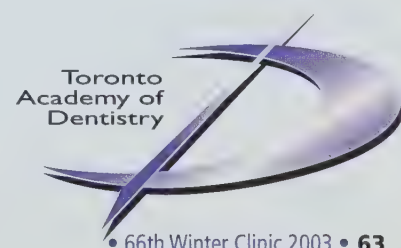

When CPR came to dentistry, Gary was there. Not satisfied with taking the course, Gary became an instructor, and from 1978-1983 he presented many basic Cardiac Life Support courses throughout the region.

To list Gary's many professional affiliations would take much more space than we have here, but suffice it to say, he has a wide range of interests, which are reflected in these associations. He is not content to sit on the sidelines, but participates actively in many associations, often serving on their boards.

Gary continues to be active in dentistry and to voice his opinions when called upon. From 1994 to 1997 he was a member of the Editorial Board and an Editorial writer for Oral Health Magazine.

Gary's ongoing interests as he completes his 6th decade include astronomy and golf, which he pursues despite his "Bobby Orr" knees and his insistence that the two are not related. Gary is an avid collector of baseball cards and sports memorabilia, and has a vast store of trivia. He would be an excellent first choice for "Phone-a-friend" on Who Wants to be a Millionaire.

Gary has traveled extensively, and there are not many places he has not seen. He and his wife Bev, who were married in 2001, particularly like Hawaii. Gary has even become an Internet travel planner for international dental meetings. Those of us who have traveled with him can personally attest to his expertise in this regard. Gary is very proud of his daughter Lana, and son Daniel who join with all of us here tonight in honouring Gary with this Honourary Life Membership in the Toronto Academy of Dentistry.

Extraordinary Esthetics. Exceptional Wear Resistance.

EXTRAORDINARY ESTHETICS

Ivoclar Vivadent has always been recognized for superior esthetics in denture teeth. **BlueLine™** replicates natural layering to create extraordinary depth, reflection and beauty.

EXCEPTIONAL WEAR RESISTANCE

Clinically proven DCL (Double Cross Linked) acrylic provides a wear resistant material, helping to maintain vertical dimensions while resisting stains, chipping, and breaking.

CONTEMPORARY OCCLUSION OPTIONS

In collaboration with leading occlusion experts, academics and prosthodontists, breakthrough designs in monoplane, lingual contact, semi-anatomical and anatomical occlusion systems are now available.

A-D & BLEACH SHADES

BlueLine™ is available in all 16 color perfect A-D shades plus 2 new bleach shades to satisfy patients' esthetic demands.
